## Career Summary

### Editor | Actor | Videographer

With experience behind the camera as an Editor and DP, and as on camera talent as an Actor, I bring a well rounded and diverse perspective to projects. I'm an efficient editor mostly working in digital media. Deadlines are met ahead of schedule allowing time to properly incorporate notes and deliver what's intended. As a guerilla filmmaker, especially in skating, my instincts guide me to shoot with a deeper sense of awareness. My comedy background, specifically writing, shooting and editing as a member of two Upright Citizens Brigade teams, has helped sharpen my comedic timing and reflects in my published works.

## Work Experience

### Lead Editor/Videography Accomplishments
